

About Us

A clinic of passionate people committed to helping every child reach their full potential

Meet Our Staff

Our dedicated team is here to support your child and family with compassionate, expert care. We work together to help children build confidence, develop skills, and reach their full potential.

Rabia Shahbaz, MS, MAT, PhD
Founder

Rabia is an educator with more than 20 years of experience helping children and families reach their full potential. Inspired by her professional journey and her experience as the mother of an autistic child, she founded Osmon to create a welcoming community where children feel valued, supported, and empowered to thrive.

Mehnaz Ahmed, MAT, MBA
Special Education Consultant & Parent Resource Specialist

Mehnaz brings special education expertise, leadership, and firsthand parenting experience to the Osmon team. She supports families by tailoring educational strategies to each child's learning needs, helping parents navigate school and funding systems, and connecting them with valuable special education resources.

Samia A. Zahran, M.S., CCC-SLP
Speech-Language Pathologist

Samia is a licensed speech-language pathologist with more than a decade of experience supporting children and families. She uses a strengths-based, individualized approach to communication, AAC, social connection, feeding, and related needs while giving families practical strategies they can use in everyday life.
